Telit Communications PLC

Telit selected by China Unicom to provide Industrial IoT solutions

London, 11 October 2018 – Telit Communications PLC (“Telit”, “the Group”, AIM: TCM), a global enabler of the Internet of Things (IoT), announces an agreement with China Unicom, the telecoms group. China Unicom will use Telit’s deviceWISE IoT platform to streamline the process of integrating and managing its IoT devices and applications as well as supporting the rapidly expanding deployment of its growing install base.

The deviceWISE platform allows for faster and easier deployment and provides the ability to simply connect industrial assets and machines. This provides manufacturing companies with enhanced access to the data they need in order to improve their productivity.

Paolo Dal Pino, Executive Chairman of Telit, said:

“Our new relationship with China Unicom is a key development in growing our IoT module and solution market share in one of the world’s largest, fastest-growing economies.”

“We are delighted to be working with China Unicom to deliver best in class IoT solutions to customers in the thriving Chinese IoT market.”

Mr. Chen Xiaotian, GM, China Unicom Internet of Things Limited said:

“As the third wave of world information industry development, the Internet of Things has huge market space. China Unicom IoT has provided IoT services to 20,000 industry customers and 100 million connected devices.”

“Facing the rapid growth of the number of devices, we believe that through the new relationship with Telit, our customers can enjoy more efficient business development, better service experience and higher value returns.”
